The electrical and wind storm Tuesday night about nine o'clock made everybody at the street fair make a bee-line for shelter as it was blowing down some of the tents, and threatened a big rain although only one-tenth of an inch fell.

Prof. E. L. Grubbs purchased of Prof. J. A. Carnegie his hand-made paneled bookcase and about 400 text books and other fine library books and had such a load with some furniture purchased of some party that his old spring wagon front axle bent down like a bow, and Mr. and Mrs. Thos. Metcalf came along in their auto and kindly took Prof. Grubbs and Herman Stanley, who insisted on walking after the axle bent, and gave them a welcome lift as far as Shelby City, from Mr. George Christman's Jr.

To answer your questions, to bring to you, right where you live the story of the great war as it has been told to us by the President of the United States, the members of his cabinet, and heads of war activities at conferences recently held with our field and platform representatives here in Washington this is the mission of the Radcliffe Chautauqua, which will be with us August 16, 17, 19. CALOMEL ROBBED OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Unpleasant and Dangerous Qualities Removed—New Variety Called "Calotabs"

The latest triumph of medical science is a purified calomel, known as "Calotabs." The old-style calomel as all doctors know, was the best and most generally useful of all medicines. The new variety, known as Calotabs, is purified and refined from all objectionable qualities, and is most delightful in effect.

One Calotab on the tongue at bedtime, a swallow of water—that's all. No taste, no cringing, no nausea, no danger. Next morning you awake feeling fine, with a clean liver, a purified system and a hearty appetite for breakfast. Eat what you please. There is no restriction of habit or diet. Calotabs are sold only in original, sealed packages; price, thirty-five cents. Your druggist recommends Calotabs, and will refund your money if you are not delighted with them.

PLAIN NATURAL IRON BEST TONIC

Costs but a Fraction of What Weaker Preparations Sell for—A Spoonful in a Glass of Water a Dose

The absolute proof that medicinal iron would help the blood and strengthen people wonderfully has caused many chemists to perfect more or less efficient iron tonics and more or less efficient tablets.

For most people, however, the writer would say that just plain highly concentrated Acid Iron Mineral is better, far cheaper and stronger and goes from two to six times as far.

A bottle of Acid Iron Mineral, kept handy and a teaspoonful poured in a glass of drinking water after meals, makes a delightful, very unusual and highly beneficial tonic and strengthener, and if the blood needs enriching and purifying it would be hard to find anything that does it better or aids the system of rheumatism and kindred ailments quicker than just plain concentrated Acid Iron Mineral, which is the name for non-alcoholic natural iron.

It also has a beneficial effect upon appetite and digestion, and the kidneys soon show its effects.

(Note:—A-I-M does not act as a laxative and should not be needed to stimulate the liver or bowels a good laxative tablet like A-I-M Liver Pills is recommended.)

McElroy, father of the bridegroom, and formerly pastor of the Presbyterian church at Stanford, officiated, using the double ring ceremony. After the wedding supper in the state dining room, the Rev. and Mrs. McElroy left for a short stay at a Virginia mountain resort and will later go to White Sulphur Springs, W. Va., where the Rev. McElroy is pastor of a Presbyterian church.

They spent the afternoon playing croquet, pitching quids, swimming and at other diversions, had all the fish they could eat and returned in the evening, some of them remaining at Boonesborough for supper.—Richmond Register.

SLAYER OF WIFE DIES

Thomas Dishon, the Garrard county farmer, who tied his wife and shot her to death in Garrard county Sunday afternoon, and then turned his pistol on himself, died from the wounds Tuesday night. The burial occurred at Lancaster Thursday. The wife was buried at Wilmore Monday afternoon. An effort was made to save Dishon's life but he begged pitiously to die and the medicine and treatment given him seemed to have little effect. That his mind was badly out of balance there can be no doubt.

SOLDIER'S WATERY GRAVE

Mr. and Mrs. Morris Long, of Garrard county, were informed of the drowning at Camp Beauregard, La., of their son, Reather Long, aged 23, who was in training for army service. He was suddenly seized with cramps while bathing and drowned before assistance could reach him.

SILAS GREEN FROM NEW ORLEANS

A troupe of colored troubadours, under the management of "Silas Green from New Orleans," played to a good crowd in a tent here Thursday night. They carry an excellent brass band, and the tricks the drum major does with his musket are little less than wonderful.

IT'S IN THE AIR

Windblown pollen, carrying the germs that cause hay fever, is abroad in the land. One remedy is known to give relief and comfort from choking, inspiring asthma and tormenting hay fever. Foley's Honey and Tar spreads a healing coating on inflamed membranes, stops coughs and colds. Sold everywhere.

DROUTH STOPS OIL DRILLING

Water is so scarce over in the oil field section of the county that many of the drilling outfits are idle until it rains. Lack of rain in certain parts of the county is doing great damage and it is feared that the tobacco crop will be cut short if a downpour does not come soon.

WIDOW OF THOS. MOORE DEAD

Mrs. Laura Moore, widow of Thomas Moore, for many years a resident of Crab Orchard, died at the home of her daughter, Mrs. Charles H. Singleton, at Kingstree, S. C., from the effects of an apoplectic stroke she suffered some three weeks ago. The remains arrived at Crab Orchard last night, accompanied by Mr. Singleton, and were interred in the Crab Orchard cemetery this morning at 10:30. Mrs. Moore had made her home with Mrs. Singleton since the latter's marriage 22 years ago. The other children who survive are Ward Moore, of California, and Hal Moore, of Chicago. Mr. Thomas Moore in his day was a great race horse man and was very successful in both raising and racing thoroughbreds.

HAIL DOES MUCH DAMAGE

Much damage to tobacco and other growing crops was done by the hail which fell in the Goshen section of the county Tuesday afternoon. It virtually ruined R. C. Dudderar's tobacco crop and badly damaged three acres for Lilburn Gooch, ten for Jesse Fox, seven and a half for W. I. Holtzclaw, the same number of acres for W. G. Gooch, five and a half acres for J. W. Holtzclaw, two for Newell Fox, five for B. F. Holtzclaw and three for J. T. Holtzclaw. Fortunately for the gentlemen all of them except Mr. R. C. Dudderar had hail insurance. Each carried from \$100 to \$150 per acre with R. M. Newland, of this city.

WANTS TO GET "OVER THERE"

"I have been at Fort Thomas nearly three weeks and sure do like it, but I am anxious to get to a real camp and 'get over' as soon as possible," says Private Ben F. Jennings, formerly an employee of The Leader, in a letter to W. M. Metcalf. He encloses a photograph of himself, which he terms "a good likeness of General Pershing's successor." Private Jennings asks that anyone who has a baseball glove, a ball or any other equipment for the national pastime to send them to camp, as the soldiers are in need of them.—Lexington Leader.

NARROW ESCAPE FOR BOYS

The three little sons of Mr. and Mrs. Lee Harmon, of Shelby City, had a narrow escape from death last Saturday morning when the pony they were driving became frightened at a passing automobile and ran away on the Danville and Hustonville pike. One of the lines broke and Marcus Harmon, aged 8 years, in attempting to pick it up from the shafts, fell under the pony cart and the wheels passed over his body. Some colored people stopped the pony and the other two boys, Elias, aged 9 years, and Arthur, aged 4 years, were not injured.

WILDER FARM SOLD HIGH

The S. R. Wilder farm of 170 acres, sold by Col. G. B. Swinebroad, the Lancaster "sale wizard," Thursday, was bought by J. E. Bowles, of Washington county, at \$166.50. Bidding was spirited and the sale was a success from every standpoint.

PIGEON FESTIVAL

The pigeon festival given by the members of the colored Methodist church, Rev. E. Coleman, Jr., pastor, was very much of a success. Matilda Robinson caught the pigeon, which carried a gold ring, and now wears a very pretty finger adornment.

REFUSED 35c FOR TOBACCO

Col. Newton Prather drove 40 miles to Harrodsburg to vote in Saturday's primary, while many people living in that and other cities did not take enough interest in the election to go to the polls.

PATRIOTIC DAY BIG AFFAIR

A big crowd gathered here Wednesday and enjoyed to the fullest the interesting program prepared by the Liberty Service Leagues of Lincoln county, and in which a better insight of the workings of the War Council of Defense was given. A committee of good women had beautifully decorated the court-house, inside and out, with flags and hunting of national colors, and during the day did much for the furtherance of the noble causes for which they worked. In the morning Hon. E. T. Franks, of Owensboro, made an excellent speech at the court-house, after a handsome introduction by Hon. P. M. McRoberts. He told of the great work that is being done by the Red Cross, the Y. M. C. A. and the National Council of Defense, and the necessity of such organizations in these perilous war times. He dwelt at length on the great good being done for the gallant boys who have given their all for this country that it might continue a fit place to live in. He eulogized President Wilson's conduct of the war now being waged, and admonished his hearers to save their criticism of the great man until the war is history. Mr. Franks is about the most prominent man in the Republican party of the State and his words showed clearly that he is big enough to forget politics, when real patriotism is so much the more needed. It was Mr. Franks, we believe, who remarked at a gathering to which he was speaking that as far as he is concerned "politics is adjourned until the close of the war." "Pity it is that more Republicans and Democrats, as well, can not see likewise, and instead of trying to feather their nests with soft births, try and do something that will bring the most horrible war in the history of man to a victorious end. In the afternoon Capt. R. Muir Allan, a British officer who served in France from October, 1914, until February, 1918, and whose wounds gave him an honorable discharge, was introduced by Mr. William Severance. He spoke in the Christian church yard, the heat being so intense that it was almost impossible to remain indoors. His remarks were greatly enjoyed, his personal experiences being intensely interesting. Capt. Allan is an educated gentleman and knows how to put into words what he has seen and done since the hell-hound of Berlin begun the butchering of innocent women and children. At the close of his great address, Gen. Maude, the Red Cross mule, was sold to the highest bidder. The Woman's Club got the valuable piece of muleskin for about \$1,000 and very cleverly presented "it" to the Madison County Chapter of the Red Cross. There were hundreds of bidders on Gen. Maude, but it was a safe wager that when the Woman's Club "went after" the mule that organization would get it. The Somerset brass band furnished good music for the crowd, and the day was one that will linger long in the memory of the many who were fortunate enough to be here. The D. A. R.'s served a toothsome lunch in the store-room formerly occupied by Severance & Son and made close to \$100 for their organization.

JOHN P. JONES DEAD

John P. Jones, for years a merchant of this city, having a dry goods store in the room now occupied by The Princess, died first of the week at San Antonio, Texas. He had been in bad health for some time and had gone to the southern city with the hope of gaining health and strength. Mr. Jones moved from Stanford to Mt. Sterling and operated a store for some years, but later traveled for a dry goods house. He is remembered by many of our people who sorrow at his taking away.

MAN POWER TO WIN WAR

Concerning the result of the war, a Washington dispatch has the following:

That man-power will be the determining factor in the war, and that it is incontestable that the numerical superiority of the Entente is increasing daily are two admissions which have been made publicly and have caused great despondency throughout Germany, according to advices received here.

The nimissions are made in the Arbitrator Zeitung of Vienna, which states that the French and allied victory on the west front has visibly produced a profound impression among the people. The paper states: "The assaults of the Allies against our new front have in no way diminished in intensity. That is a fact which gives one cause to think. With adversaries like the Russians the technical ability of the Germans was such that the numerical superiority of the Russians was of no importance."

On the west the situation is quite different. Do not let us forget that the French and the Anglo-Saxons are side by side with the Germans the most civilized peoples in the world, and that they are in a position to turn all modern technical inventions to their own profit.

On the other hand, let us take in consideration the invincible spirit which animates the French soldiers, the tradition of victory and glory which only these last few years German history has somewhat tarnished.

"This spirit of the French army united with the powerful organizing ability of America, gives a value to the armies of the Entente at the very least equal to that of Germany. One must therefore admit that in the west these factors which military and technical value represents do not henceforth play any role. Those are advantages which have become neutralized. It therefore results, in contradiction to what happened on the eastern front, that the decisive factor in the war will be man-power. Now it is incontestable that the numerical superiority of the Entente is increasing every day. That is a formal avowal of the inevitable defeat which is awaiting the Central Powers."

That the conclusion of the article was still more alarming is manifest from the fact that the Austrian censor suppressed it, although he allowed the publication of the matter quoted above.

RECORD MEAT ORDER

The largest single order for bacon and canned meat in the history of the world—99,560,000 pounds of bacon and 134,000,000 pounds of canned meat—has just been placed by the Quartermaster's Department, U. S. A., for the American army overseas. L. F. Swift, in commenting on this said the order will take the bacon from approximately 1,900,000 hogs and if other work were dropped to produce it it would be equivalent to the total bacon production of the five largest Chicago packers for nearly five weeks, however, six months will elapse before delivery is to be completed. Mr. Swift said:

"At the current prices on the day, last week, when the purchase was made, the packers would pay the live stock producers about \$80,000,000 for the necessary hogs and over \$50,000,000 for about 900,000 cattle required."

"The cattle will cost us twice as much, and the hogs two and a half times as much in the pre-war period."

"The five packers are now killing about 350,000 hogs weekly to keep abreast of martial and domestic needs."

THE LATEST WAR NEWS

Launching an offensive between Amiens and Montdidier in the Picardy theater, British and French forces penetrated the German lines to a depth of from two to seven miles, recaptured a score of villages and hamlets and took 7,000 prisoners. All the objectives were reached by the Allies, who at last accounts were still making progress.

An entire German battalion, while planning to attack American bridge builders on the Vesle, was wiped out by Yankee machine gunners. The Americans guarding the engineers occupied a high position overlooking the Vesle and when the Germans were getting into position the gun opened fire. There were no American casualties.

THE COURIER.

JOURNAL'S NEW OWNER

Judge Robert Worth Bingham, who has just bought the Courier-Journal and Times, makes the pleasing announcement that Mr. Watterson will continue with the paper as editor emeritus, which will be good news to the friends of the greatest of living writers. Judge Bingham has had a most remarkable career. A native of the Tar Heel state, his father, who believed that the best fortune he could leave to a child was a liberal education, sent him to that institution of the highest ideals, Virginia University, where he graduated, both in the sciences and in law. Locating in Louisville, he began the practice of his profession and shortly afterwards married a Louisville lady, who bore him several children. Some six years ago she was struck by an automobile and instantly killed. The judge remained a widower for several years, and meeting the widow of Multimillionaire Flagler, the Florida developer, whom he had known in youth, and between whom there had been a childish attachment, he made love to her and she became his bride. She did not live very long and died in Louisville, where they were making their home. Mr. Flagler had left her most of his colossal fortune and Judge Bingham might have more largely participated in it, but he declined to do so and finally at her urgent request accepted a gift of \$5,000,000 in lieu of all rights. This money the judge has just come in possession of and he shows his wisdom by buying the State's greatest newspapers. A number of years ago, the judge was elected to a judicial office in his adopted town, but until Gov. Beekham appointed him mayor to fill a vacancy, he was not known much outside of the metropolis. His curbing of the whisky power there and the enforcement of the Sunday closing law were notable achievements and made him a name that echoed through the State. He has never had newspaper connection before but we are sure he will continue to make the Courier-Journal and the Times the pronounced success they have proved. We hope so at any rate and welcome him most cordially into the inner circles of the fourth estate.

Bethurum and Bruner are both claiming the Republican senatorial nomination and it is said that it will take the official tabulation to decide who is the winner. We are betting on Bethurum, though. He is backed by the Eleventh district, which always supplies as many votes as are needed for its favorites. It is well that it is a matter of so little importance which is nominated. It would be a public calamity for either to sit in the seats of the mighty as worse than figure heads. Great old Ollie James is going to get well and for six years more do more for the country in this terrible crisis than either of the aspiring gentlemen could do in a lifetime.

When the kaiser was informed that American soldiers were on the way to help the Allies whip him, he grew very sarcastic and made all sorts of fun of the green Yanks. But he evidently whistled to keep his courage up. The leading paper at Berlin admits now that "American troops have shown themselves to be thoroughly good fighters, which enhances the success which our brave troops and their commanders have attained." There is no discount on the bravery of our boys and if given free rein they would end this war before the kaiser could realize that he was done for.

Three large hotels in New York were closed for two days and their licenses to make or bake bread, ice cream or pastry suspended for 30 days for hoarding sugar. In lieu of greater punishment another large hotel agreed to contribute \$10,000 to the Red Cross and Y. M. C. A. The law is very strict and the power of the food administrators almost illimitable, so it is the part of wisdom to obey and not get caught in the net.

The cables tell us that President Poincare, of France, in decorating Gen. Pershing with the grand cross of the Legion of Honor kissed him twice. This is another proof of Sherman's declaration that war is hell. The average man would prefer to be kissed by a wet dog than another man, no matter how great the honors that go with it.

Speaker Clark was renominated for Congress for the thirteenth consecutive time, this time as in most other cases without opposition. Old Champ is Kentucky's contribution to the Show Me State and he is by far the most distinguished citizen of it.

Medical science has discovered cures for many of the diseases which were formerly thought to be incur-

able. The dread tuberculosis has been robbed of its certain fatality and typhoid fever and other maladies are prevented by inoculation. It is now said a cure has been discovered for leprosy, but no cure or prevention of cancer has yet been announced. This terrible disease, which is making such inroads into the human family, will in time be harnessed and made to yield to treatment. There have been rapid strides in medicine and surgery in the last decade and we may confidently expect greater ones in the next ten years or so.

It is said that Robert W. Brown, former managing editor of the Louisville Times, and familiarly known to the State newspaper men as "Bob Brown," is slated for election as president of the National League of Base Ballists. This sounds like a heavy falling from grace for a first-class newspaper man, until it is told that it pays between \$10,000 and \$15,000 a year, which is slightly more than most of us pen drivers receive. "Bob" was the most popular of the press boys, when he was one of us, and if their votes could elect he would not only be the president of the National League but any other kind of president he might wish.

The nomination of Appellate Judge Warren E. Settle is one of the gratifying results of the primary which his opponent placed on the frivolous grounds that the judge having made Frankfort his home for the last twelve years, he was not a resident of the district he represented. Judge Settle has won honor and fame on the bench and his retention for the next six years counts for a true interpretation of the law and the integrity of the judiciary.

Official accounts show that in the last ten months 155 aviators have lost their lives in the training camps. Officials say that this is a splendid record, far below the fatalities of Germany and Austria, but most of us will regard it as very large and deplorable.

The fuel administrator's advice to buy coal now, when the mercury is 100 in the shade seems to be adding insult to injury. We do not feel now that we shall ever want to see another lump of coal or anything else that will produce heat.

Denials of renewal of license, inability to pay the increased amount of \$1,000 and contiguity to soldier camps, knocked out 150 saloons at Louisville Tuesday, reducing the number to about 450, which is still enough and to spare.

Luxuries are to be taxed to the quick under the new revenue bill, which means everything, since there appears no dividing line between luxuries and necessities since the House of Herlin forced this hateful war on us.

Water is shut off for an hour or so this afternoon while a leak in the main is being repaired.

James Fogarty, aged 78, a former Danville man, is dead at Lexington.

MOTHERS TO BE

Should Read Mrs. Monyhan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, sometimes I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

Tax of 10 per cent on leased wires and a horsepower tax on automobiles were placed in the \$8,000,000,000 Revenue Bill concurrent with a statement by Chairman Kitchin, of the Ways and Means Committee, agreeing with Secretary McAdoo on a flat tax rate of 80 per cent on war profits.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If work is tiring, if your nerves are excitable, if you feel languid, weary or depressed, Scott's Emulsion will prove a wonderful strengthener.

Stop Corn Agony In Four Seconds

Use "Geta-It"—See Corns Peel Off!

The relief that "Geta-It" gives from corn-pains—the way it makes corns and calluses peel off painlessly in one piece—is one of the wonders of the world. The woman in

the home, the shopper, the dancer, the foot traveler, the man in the office, the clerk in the store, the worker in the shop, have today, in this great discovery, "Geta-It," the one sure, quick relief from all corn and callus pains—the one sure, painless remover that makes corns come off as easily as you would peel a banana. It takes 3 seconds to apply "Geta-It"; it dries at once. Then walk with painless joy, even with tight shoes. You know your corn will loosen from your toe—peel it off with your fingers. Try it, corn sufferers, and you'll smile!

BE SPARING WITH WATER

Again we ask our patrons to be sparing with water. The little rains we have had have increased the water supply scarcely at all, and unless more comes soon we will not be

able to give 24-hour service. Under no conditions must anyone sprinkle. Please heed this request. The water in the lake is not for drinking purposes and the springs are furnishing less and less water daily. Please help us at this critical time. Stanford Water, Light & Ice Co.

REPAIRING THE OLD DEPOT

It was hoped that the Q. & C. or the L. & N., or both of those big corporations which use the depot at Junction City would replace the old shack with a comfortable, new building after a freight train tore into it, but they didn't. Workmen are busy making repairs and the unsightly old concern will likely serve the public until fire reduces it to ashes—which sooner it does, the better.

TERRIBLY SWOLLEN

Suffering Described As Torture
Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while filling, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it!

They carry a stronger guarantee than the tires now on your car. They are guaranteed puncture-proof.

Yet they cost only 1/2 as much as the tires you have been buying.

If any of your tires are tread-worn, you owe it to yourself to investigate.

THE ENEMY'S FOOD SUPPLY

No doubt it is necessary because of the vital importance of food conservation in Germany, but the Food Administration in that empire is astonishingly frank in its statements to the German people in regard to the "depressing" outlook for food.

The most recent statements have been in explanation of the reduction of the potato ration to one pound a week, and a cut of 20 per cent in the meat ration. The food reserves are about gone and the new harvest is not all in. Therefore, each man, woman and child in Germany must eat less during the next few weeks.

The German Food Controller does not hesitate, however, to bluntly tell the German people that there will be large increases in rations after the harvest comes in. In that connection he makes public the report of a commission appointed to examine into the possibilities of large grain supplies from Russia during the crop year that is estimated to begin August 15. This commission finds that the acreage of Russian wheat has been enormously reduced. In many provinces the acreage is only 38 per cent of the acreage in 1916. In the Ukraine the acreage is, or was 51 per cent of normal, but dissatisfied Ukraine peasants have ravaged the crops in many quarters rather than see the yield pass into the hands of German and Austrian soldiers.

The 1918 crops both in Germany and Austria, are admitted to be lower than the crops of 1917. It must indeed, not be supposed that the German Food Controller indicates that Germany will not be able to hold out another year, but he does boldly state that, as a broad proposition, the German people will have to be more careful of food in the next twelve months than in the last and this in itself is as bad news for Germany as the story of the military disasters on the Marne.—Louisville Post.

Several months ago Arthur and Frank Murdock, brothers of Greensburg, Ind., cut the cards to see which one should enlist in the army and which remain at home to provide for the aged mother, two other brothers having already entered the service. Arthur was successful, joined the artillery and has been in France for some time. Frank has now joined the navy and soon expects to be doing his bit for the country in the war against Prussianism.

The killing of two Madison county boys and the severe wounding of a third, reported Tuesday from the western battle front in France, have brought the war home to the people of the county in most impressive manner. Relatives of Private Guy Warren, of Edenton, received a telegram Tuesday from the Adjutant General at Washington stating that he was among the killed in Monday's fighting. The other Madison lad killed was Bruno Weiz, of Berea, and Sergeant Forest Burns, nephew of Mr. W. S. Hunley, of this city, was reported as being among the severely wounded.—Richmond Register.

IMPORTANCE OF HEALTHY KIDNEYS

Stanford Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins and is often accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this Stanford citizen's advice.

W. A. Brent, R. F. D. No. 2, says: "I have used Doan's Kidney Pills and know they are a good medicine. My kidneys were weak and inactive and I had sore and dull pains across my back. Doan's Kidney Pills soon put my kidneys in good shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brent had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

MORE HONORS FOR BOONE WAY MAN

A. G. Bachelier, Executive Chairman American Automobile Association, Washington, D. C., writes W. H. Fish, Secretary Boone Way Association, Mt. Vernon, Kentucky:

"Subsequently there will reach Col. Jim Maret, the old highway scout an A. A. A. emblem to be placed on that car lately presented him by good road friends throughout the country. This emblem is similar to the ones which occupy places on the White House automobiles. The head of the nation has complimented the A. A. A. by displaying its emblem on the presidential automobiles, thus giving evidence of his belief in the association's work for highways improvement of a national character.

The emblem that will come to Col. Jim is special made and the only ones in use are those on the White House cars and on automobiles of the present and former chief officers of the A. A. A."

"That National Highways and Dixie Highways Associations' emblems are also displayed on the radiator of the Boone Highway Man's car."

POOR WOMAN MAKES SACRIFICE

"For years I have doctored for indigestion and severe bloating with gas, all my money had gone for doctors and medicine which did me no good. I had lost all faith in medicines and as I have to work hard for the few dollars I earn, was afraid to risk any more money. A year ago my neighbor told me to try Mayr's Wonderful Remedy. I have found it to be the best medicine in the world and am glad I made the sacrifice." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Lincoln Pharmacy; The Penny Drug Store.

Mother's Friend in Every Home

Comfort and Safety Assured Before
the Arrival of the Storm.

In thousands of American homes there is a bottle of the splendid and time-honored remedy, Mother's Friend, that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health of mind and body in advance of baby's coming, and had a most wonderful influence in developing a healthy, lovely disposition in the child.

Mother's Friend relieves the pain and discomfort caused by the strain on the elements, makes pliable those fibers and muscles which nature is expanding, and soothes the inflammation of breast glands and other soreness. The tendency to nervousness and to morning sickness or nausea is counteracted.

By regular use during the period the muscles expand with ease when baby is born, tension is reduced and the pain and danger of the crisis is naturally less.

Mother's Friend is an external remedy, is absolutely safe and wonderfully effective. It not only allays distress in advance but assures a speedy recovery for the mother.

This splendid preparation may be had at every drug store, and is one of the greatest blessings ever discovered for expectant mothers. Write to the Bradford-Rogers Co., Lanor Bldg., Atlanta, Ga., for their "Motherhood Book," so valuable to expectant mothers, and in the meantime do not fail to get a bottle of Mother's Friend at the drug store and thus fortify yourself against pain and discomfort.
